> First, thank you for having me! I'm excited to interact with your group. As both an audience member and from up on stage, I've had lots of opportunities to see what works well and what doesn't. To deliver you the best experience possible and to prevent glitches or misunderstandings, I've created this list of suggestions and requirements.
>
> Thank you for inviting me, and I look forward to working together to make your event fun, memorable, and impactful.
>
> – Saahil
The Official Tech Rider for Saahil Mehta

[suggestions & requirements that make your event superb]

These are Saahil Mehta's technical and logistics requests and some best practices applicable when Saahil is your featured speaker.

Here's how to get the most when you feature Saahil Mehta as your speaker. Please have the person responsible for the event actively confirm that you'll make these things happen and that you accept these terms.

Audio Video

- Saahil uses his laptop (PC) and a remote control that he brings with him. Please supply HDMI cables to transmit the presentation, video & sound.
- AC power should be within one foot of the computer and the laptop must be set up within reasonable sight (no more than 5-7 feet) of the most distant point where he will be standing. It works best to have it on a low table rather than a podium.
- He needs a wireless lavalier/lapel microphone so his hands can be free. He won't use a podium mounted microphone. Please test sound on all areas of the stage for volume and for feedback–if they cannot be resolved, please advise him of "danger spots."
- To have the highest-energy presentation, a single screen should be off to one side or well above the stage, not centre stage because the presenter is the focal point and the slides are merely supplemental. Saahil can't move around when he's forced off to one side, unable to pass by the screen without obscuring it.
- It's critical to have a clear front-stage area. You'll be really glad he's not the sort of speaker who hides behind a lectern.
- Saahil is happy to coordinate with your team for a tech check, preferably 30 minutes before he goes on stage.

Scheduling & Logistics

- Because he never wants to let you down as a result of wonky airline performance, Saahil prefers to arrive the night before. Please arrange or recommend a hotel that's either at the venue or closer to the airport than the venue itself. He'll need a nonsmoking room.
- Saahil would enjoy meeting with your executives prior to his speech. Dinner the night before with the group is always a great idea if travel permits. This interaction is helpful for personalising the presentation for your group.

Slides and Handouts

- Saahil is happy to provide his slide deck upon request post session.
- A workbook is provided in PDF format to be printed as an A4 book on bond paper to allow the audience to have a document they can refer to.

Recordings and Photos

- Feel free to take photos before and during Saahil's talk but please, no flash photography is allowed during the presentation.
- Unless we have an agreement you don't have permission to record audio or video of the session.
- You kindly agree that Saahil has the right to photograph the session, as well, and use photos online or in print.
